Jordan's friend is selling a bike. It costs \$200. Jordan wants to buy the bike, but he only has \$50. He ¹ borrows money from his aunt. His aunt ² _____ him \$50. He ³ _____ the money in his bank account. He gets a part-time job at a pizza place in the food court, and he ⁴ _____ \$100 a week. He ⁵ _____ some of that money on movies and video games. He ⁶ _____ \$25 a week for a month and puts it in the bank. Finally, he ⁷ _____ \$200 from the bank, and he buys his friend's bike!
